- Communication Skills
- Teamwork Skills
- Fast Learner
- Frontend: HTML, CSS, JavaScript, ReactJS, Tailwind, Bootstrap
- Backend: PHP, Express, NodeJS
- Database: MySQL, MongoDB
- Object-Oriented Programming

PROJECTS

Twitch Insight

Capstone Project

- Twitch Insight is a website that uses the RoBERTa NLP model and Twitch API to analyze live chat sentiment and audience engagement.
- Built with ReactJS, Tailwind CSS, Flask, and MongoDB for a responsive, interactive, and full-stack web application.
- Features real-time sentiment graphs, reporting dashboards, and word clouds for each sentiment category to help streamers understand audience reactions.

OBJECTIVE

Seeking an internship in the IT field to apply foundational knowledge and technical proficiency in modern technology solutions. Eager to contribute comprehensive computer literacy and collaborative teamwork skills to a dynamic team, gain hands-on experience, and develop practical skills in a professional environment while completing my studies.

Personal Portfolio

Personal Project

- A personal portfolio website built with React and Tailwind CSS, featuring a responsive design, smooth animations, and organized project showcases.
- Live Website: francisemilcortez.vercel.app

Inventory Management System

School Project

- PHP OOP-based website for managing inventory, featuring stock tracking, order processing, reporting, and user authentication.
- Integrated with MySQL database and built using PHP, AJAX, HTML, and Bootstrap CSS for a responsive and interactive interface.
